INTRODUCTION

In addition to the Bible, I believe there are certain writings by some Godly people you must read, to enable you become the man or woman God had in mind for you. God in His infinite wisdom will make sure those books get into your hands, in order to make His purpose for your existence to be fulfilled.

I congratulate you for deciding to read this book. I am confident it is divinely sent to you, as nothing positive or negative in life happens by accident. There is a divine reason for everything.

Dear reader, there are generational sins of idolatry, homosexuality, lesbianism, divination, necromancy, etc., that are affecting man today. The sins of our fathers are the root cause of many of our problems.

Although we are “Born Again”, yet, if our ancestors had engaged in those sins, we are at the mercy of the law of sowing and reaping, which positively or negatively affects the lives of succeeding generations, and even beyond. (*Exodus 20:4-5*) We always reap what our fathers or forefathers sowed, be it blessings or curses. The law of sowing and reaping allows for good, as well as evil.

It does not matter what may be holding you in bondage today, the good news is that, you can be free – free from every hold and effect of generational sins, by the authority handed to us by and in Christ Jesus, through prayer. You cannot pick this book ***Deliverance from Generational Sin*** and expect to be the same again. No! What you will learn and discover in this book will surely lead you to total freedom from generational curses. Therefore, it is time to come into our natural inheritance and blood-purchased status, as the children of God.

Praise the Lord! A new beginning is here for you!

CHAPTER 1: FOUNDATIONAL UNDERSTANDING

PSALM 11:3

If the foundation be destroyed, what can the righteous do?

This divine statement confronts us with a profound challenge. What can the righteous do, if the foundation is destroyed? This verse of the Holy Scripture does not say what the unrighteous, the ungodly, the sinner, or the unbeliever can do?

What is a foundation?

A foundation is the basis for structure on which something is constructed. Everything has a foundation. There is nothing you would do in this world that will not need or have a foundation. The Bible states in *Psalms 102:25* that the world's foundation was laid by God.

Basically, the success or failure of any structure, project and human life depends on the type of foundation on which it is built.

We are dealing with foundation in order to trace our past, which has culminated in our present condition. We are where we are today, because of the foundation laid by our forefathers, ever before we were conceived.

Basically, most of us were not born into a "healthy" family setting. Things that happened or didn't happen to us have affected our lives, molding who we are today.

Our foundational problems may explain why many Believers are still struggling with some issues today. Even though we are righteous in Christ's righteousness, yet, like a building, we are limited to what can be built, if our foundation has created a structural defect.

If a building is not properly built, there would be all sorts of problems in the building, and in no time, it would possibly collapse. The height of a building is determined by the strength and depth of the foundation.

Therefore, every foundation must be carefully put in place, before the building above the ground level itself begins. This is because in all cases, the foundation is below the Earth's surface, which cannot be easily seen or inspected.

Rather, it is the building on the foundation that is visible, but without a strong foundation, the building would not stand. The quality of the foundation determines if the building would stand or otherwise.

The slightest fault in the foundation would definitely show up, and tell on the building with time. Thus, if the foundation is faultless, everything about the building would be alright, but if the foundation is defective, the whole building would end up crumbling. The success or failure of every life or every business depends on the structural strength of its foundation.
